Experience

Infosys

Pune, India

Senior Systems Engineer

07/2023 - Present

- Driving the development of modern, server-side rendered React applications using the latest JavaScript/TypeScript advancements and Redux for scalable state management.
- Championed and orchestrated the transformative migration of a large-scale legacy SPA to an SSR architecture, resulting in a 20% increase in performance and improved user engagement.
- Collaboratively architected with UI and content teams the seamless integration of Coveo Cloud Search within the React application, developing custom JSX components for enhanced search functionalities and a 15% increase in user adoption.

Infosys

Pune, India

Systems Engineer

07/2022 - 07/2023

- Mastered a high-performance stack of React, Redux, TypeScript, and modern JavaScript/CSS, delivering dynamic and interactive UIs with seamless data management.
- Championed the architecture and development of highly reusable React components, boosting development efficiency by 30% and reducing code redundancy.
- Elevated Pega Solution UI across the board with standardized CSS, achieving a sleek and cohesive user experience that resulted in a 15% increase in user satisfaction.

Voraco

Pune, India

UI/Frontend Developer

01/2021 - 07/2022

- Wielded a versatile web development tech stack comprising React, GraphQL, Tailwind, and TypeScript, leading the development of performant and interactive web applications.
- Streamlined customer acquisition by seamlessly integrating Salesforce pipelines into existing websites, boosting conversion rates by 25%.
- Spearheaded a performance-boosting migration of a large-scale blog from WordPress to CraftCMS with Twig, achieving a 30% improvement in page load times and a 10% increase in user engagement.
- Empowered content creators with highly authorable CraftCMS websites, including the development of custom content creation workflows and dynamic landing pages.
- Tailored WordPress themes to fulfill unique client requirements, incorporating custom functionalities such as e-commerce integrations and user management systems.

Education

Savitribai Phule Pune University

Nashik, India

Bachelor's Degree in Computer Engineering

2014 - 2020
